- Adaptability

PROJECT

AI-Powered Sales Agent & Customer Engagement System

- Developed an AI-powered sales agent using Python and Google Gemini API to automate customer conversations and intelligently respond to sales-related queries.
- Integrated Twilio for real-time phone communication, enabling an AI-driven customer interaction workflow.
- Designed a automated lead-engagement system to handle initial customer interactions, answer queries, and support the sales conversion process.

ACHIEVEMENTS

Built intelligent real-time conversations to answer customer queries and support lead engagement.

INTERESTS

Learning new technologies and Problem-solving
